Article Guidance

Article Text:

This First Coast Billing and Coding Article for Local Coverage Determination (LCD) L33667 Duplex Scan of Lower Extremity Arteries provides billing and coding guidance for frequency limitations as well as diagnosis limitations that support diagnosis to procedure code automated denials. However, services performed for any given diagnosis must meet all of the indications and limitations stated in the LCD, the general requirements for medical necessity as stated in CMS payment policy manuals, any and all existing CMS national coverage determinations, and all Medicare payment rules.

Refer to the LCD for reasonable and necessary requirements and limitations.

The redetermination process may be utilized for consideration of services performed outside of the reasonable and necessary requirements in the LCD.

Coding Guidelines

Notice: It is not appropriate to bill Medicare for services that are not covered (as described by the entire LCD) as if they are covered. When billing for non-covered services, use the appropriate modifier.

Documentation Requirements

1. All documentation must be maintained in the patient's medical record and made available to the contractor

upon request.

2. Every page of the record must be legible and include appropriate patient identification information (e.g., complete name, dates of service[s]). The documentation must include the legible signature of the physician or non-physician practitioner responsible for and providing the care to the patient.
3. The submitted medical record must support the use of the selected ICD-10-CM code(s). The submitted CPT/HCPCS code must describe the service performed.
4. Medical record documentation maintained by the ordering/referring physician/nonphysician practitioner must clearly indicate the medical necessity of duplex scan of lower extremity arteries i.e., signs and symptoms, relevant history (including known diagnoses, and/or prior imaging). This documentation includes, but is not limited to, relevant medical history, physical examination, and results of pertinent diagnostic tests or procedures. Also, the results of the duplex scan of lower extremity arterial studies must be included in the patient's medical record. A hard copy or soft copy convertible to a hard copy provides a permanent record of the study performed and must be of a quality that meets accepted medical standards.
5. If the provider of duplex scan of lower extremity arterial studies is other than the ordering/referring physician/nonphysician practitioner, the provider of the service must maintain a copy of the test results and interpretation, along with copies of the ordering/referring physician/nonphysician practitioner's order for the studies. When ordering duplex scan of lower extremity arterial studies, the ordering/referring physician/nonphysician practitioner must state the reason for the duplex scan of lower extremity arteries in his/her order for the test.
6. The provider is responsible for ensuring the medical necessity of procedures and maintaining the medical record, which must be available upon request. Billing providers are encouraged to obtain additional information from referring providers and/or patients or medical records to determine the medical necessity of studies performed. Referring physicians are required to provide appropriate diagnostic information to the performing provider.
7. The medical necessity for performing repeat extremity arterial studies must be clearly documented in the medical record.
8. An order from the treating physician/nonphysician practitioner as required by CFR, Title 42, Volume 2, Chapter IV, Part 410.32(a) Ordering diagnostic tests.

Utilization Guidelines

In accordance with CMS Ruling 95-1 (V), utilization of these services should be consistent with locally acceptable standards of practice.

Compliance with the provisions in LCD L33667 Duplex Scan of Lower Extremity Arteries may be monitored and addressed through post payment data analysis and subsequent medical review audits.

ICD-10 Codes that Support Medical Necessity

Group 1 Paragraph:

The following ICD-10-CM codes support medical necessity and provide limited coverage for CPT codes: 93925 and 93926.

It is the provider's responsibility to select codes carried out to the highest level of specificity and selected from the ICD-10-CM code book appropriate to the year in which the service is rendered for the claim(s) submitted.

Group 1 Codes:

Group 1 Medical Necessity ICD-10 Codes Asterisk Explanation:

***These ICD-10-CM codes should be used in conjunction with other aftercare codes to fully identify the reason for the aftercare encounter.**

ICD-10 Codes that DO NOT Support Medical Necessity

Group 1 Paragraph:

All those not listed under the "ICD-10-CM Codes that Support Medical Necessity" section of this article.

Group 1 Codes:

ICD-10 CODE	DESCRIPTION
XX000	Not Applicable

Additional ICD-10 Information

Bill Type Codes:

Contractors may specify Bill Types to help providers identify those Bill Types typically used to report this service. Absence of a Bill Type does not guarantee that the policy does not apply to that Bill Type. Complete absence of all Bill Types indicates that coverage is not influenced by Bill Type and the policy should be assumed to apply equally to all claims.

CODE	DESCRIPTION
999x	Not Applicable

Revenue Codes:

Contractors may specify Revenue Codes to help providers identify those Revenue Codes typically used to report this service. In most instances Revenue Codes are purely advisory. Unless specified in the policy, services reported under other Revenue Codes are equally subject to this coverage determination. Complete absence of all Revenue Codes indicates that coverage is not influenced by Revenue Code and the policy should be assumed to apply equally to all Revenue Codes.

CODE	DESCRIPTION
99999	Not Applicable
